Location: Noida / Delhi NCR | Availability: Immediate Joiner

EXECUTIVE PROFILE

Data Analyst with 3+ years of experience in data cleaning, validation, SQL analysis, Python-based EDA, KPI reporting, and Power BI dashboard development. Skilled in transforming large structured and unstructured datasets into reliable insights, improving reporting efficiency, and supporting business decisions through dashboards, quality checks, and process automation.

PROFESSIONAL EXPERIENCE

DROISYS INDIA PRIVATE LIMITED

Data Analyst Level 1 | Mar 2023 - Apr 2026

- Analyzed and transformed large unstructured datasets using SQL and Python, improving data processing efficiency by 35%.
- Performed data cleaning, validation, quality checks, and inconsistency analysis to improve dataset accuracy and reliability.
- Developed Power BI dashboards, KPI reports, and data quality summaries to support business visibility and internal decisions.
- Built automated data extraction and preparation workflows, reducing manual workload by 60% and improving reporting turnaround.
- Collaborated with cross-functional teams to define data checks, review outputs, and improve workflow accuracy and model support.

DECODELABS

Data Analyst Intern | May 2026 - Present

- Working on data cleaning, exploratory data analysis, SQL analysis, preprocessing, validation, and reporting tasks.
- Using Python, SQL, and Excel to prepare datasets, perform quality checks, and generate business insights.

KEY ANALYTICS ENGAGEMENTS

A360 Brand & Object Detection Data Quality Platform

Engagement Type: Product Data Analytics & Model Support

Supported A360 brand identification and object detection workflows by preparing, cleaning, validating, and analyzing product and image datasets. Reviewed predicted brand outputs, identified inconsistencies, improved dataset accuracy, and contributed to training/product quality improvements.

Business Reporting & Dashboard Analytics

Engagement Type: BI Reporting & Decision Support

Built Power BI and SQL-based analytics projects for HR, sales, and customer datasets. Created data models, DAX-based KPIs, Power Query transformations, and visual reports to track attrition, revenue trends, top-performing products, and customer behavior patterns.

TECHNICAL EXPERTISE

Programming & Analytics

Python (Pandas, NumPy), SQL, EDA, Statistical Analysis, Data Processing

Reporting & Excel

Advanced Excel, Pivot Tables, Lookup Functions, KPI Reporting, Automated Reporting

Business Intelligence

Power BI, DAX, Data Modeling, Dashboards, Power Query, Data Storytelling

Data Tools & Cloud Exposure

ETL Concepts, Data Cleaning, Data Transformation, Snowflake Basic, Databricks Basic, AWS Basic

Database & Querying

MySQL, Joins, Aggregations, Subqueries, Query Optimization, Data Validation

AI & Core Strengths

Generative AI Concepts, Prompt Engineering, AI Fundamentals, Analytical Thinking, Problem Solving

EDUCATION

- Master of Computer Applications (MCA) - IGNOU | Pursuing
- Bachelor of Commerce (B.Com) - Delhi University | Jun 2016 - May 2019

CERTIFICATIONS

- Data Analyst Certification - Microsoft
- Claude 101 Certification - Anthropic
- IBM AI Fundamentals - IBM SkillsBuild

ACHIEVEMENTS

- Star Performer of the Quarter - Droisys India Pvt. Ltd. (Jan-Mar 2025)
- Runner-Up in Billboard Competition
